The Teumsseam has now been before the public for five years, and if not as new as some it has another advantage quite as great, viz: a well-carned reputation and a rising credit. It has been doing the work of many hundreds of families for several years, and it may be said to have estab-lished itself in basiness. Competition and change have done it no hurt. THE GREAT COUGH BEMEDY!

READER! have you a Cough, which you are neglecting. A under the idea that it is only a common cold, that it will soon "wear itself out?" Let a friend tell you, in all kindness, what will soon be the probable result.

In a short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accoropanied with frequent sharp darling pains. Then a dry, hacking Googh will set in, and when you raise mything it will be a thick and vellowish, or white frothy matter, strenked, perhaps, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have Hectic Fever, Cold Chills, Night Sweats, Copous Expectoration, and then Great Prestration. If you still neglect yourself, a few weeks or months will see you consigned to the grave, leaving your friends to mourn how rapidly CONSUMPTION did its work, and hurried you away.—Friend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of Consaumption progresses, with more or less rapidity, to a faul termination. Of all the Thousands and Millions whom this great Destroyer has gathered to the tomb, every single case began with a Cold! If this had been attended to, all might have been well but, being neglected, under the fatal delusion that it would "wear itself," it transferred its deadly action to the substance of the Lungs, exciting there the formation of tubercles. Another, and another cold added fuel to the flame, until these tubercles began to soften and suppurate eaving, by their ulceration, great eavities in the Lungs. At his crisis, the disease is very difficult of cure, and offentimes arrest the disease, or check its progress, and will always make the patient more comfortante, and prokedy his life, and its therefore worthy of a trial;—but in its incipient or farming periods, Consumption is as curable as any other disease, and "Dr. Rogers' Syrup of Liverworth, Tar, and Canchalagua," if taken at this time, will

eate it thoroughly, at once, by this power, fully healing compound and leave your Lungs uninjured, to carry you in full vigor to a good old age!

MOTHERS!

Have you delicate, weakly children, who are always taking cold, and subject to Group? Hemember! There never was case of Croup, which did not originate in a Cold! And when your child goes to bed wheezing and counting, you know not that, before morning, Croup may not set in, and ere you can get a Physician, coar dear child findy be beyond the reach of help. We beseech you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence coughing, give it to them atomor, and rest not until the cough is entirely subdued. We conscientiously aver, after the most extended experience, that if this advice were followed no child need ever

DIE OF CROUP,

for the cold would be cured, before it could arrive at this aggravated and fatal stage. Let every Mother, especially, heed well those remarks, that she may not hereafter, when mourning over the early blight of some cherished blossom, have occasion bitterly to reproach herself for her criminal neglect. It is an old adage, that "to be farwarned, is to be forearmed." Parents! so let it be in your case.

Be sure to ask for Dr. A. Rogers' Syrup of LIVERWORT, TAR and CANCHALAGUA, and let no other be palmed on you.

Mashville, Mirch 11, 1853. DUILADELPHIA MEDICAL HOUSE.—Established 15 years ago by DR. KINKELIN. The oldest, surest and hard to cure all forms of secret diseases of the skin, and solitary habits of youth, is DR. KINKELIN, N. W. corner of Third and Union streets, between Spruce and Pine, one and a haif squares from the Exchange, Philadelphia.

Take Particular Notice.—There is a habit which Take Particular Notice.—There is a nable when boys teach each other at the academy or college—a habit indulged in when by themselves, in solitude, growing up with the boy to mushlood, and which, if not abandoned in due time, not only begrets sectious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who indulge in this permicious practice are aware of the consequences, until they find the nervous system is shattered, feel strange and unac-countable feelings, vague fears in the mind. The individual becomes feeble, he is unable to labor with accustomed vig-or, or to apply his mind to study, his step is tardy and weak, he is doll and arresolute, the continuace is downess, the eves without natural lastre, shamefacedness is apparent.— These are symptoms which should marken the attention of these similarly afflicted.

these similarly afflicted.

If the victim be conscious of the cause of his decay, and having relinquished the odious practice, he suffers under those terrible nocturnal emissions, which weaken and shame him, producing mental and physical prostration. If he emancipate hunself before the practice has done its worst, and enter marimony, his marriage is unfinitink, and his senses tell him that this is caused by his early follies. sensos tell him that this is caused by his early follies.

Too many think they will hug the secret to their own hearts, and core themselves. Also how often is this a fatal delusion, and how many apromising youth, who might have been an ornament to society, has faded from the earth!

Young Men!—Let no faise modesty deter you from making your case known to one who, from education and respectability, can alone befriend you. He who places himself under DR. KINKELINS treatment, may religiously confidents and my surface the surface of the property of the places of the property of the places of the property of the places of the pla
